

The vision becomes a reality!

We are delighted that after thousands of hours of community engagement, research, planning, designing and fundraising, the village finally has an inspiring and inclusive Playscape. The positive feedback and high visitor numbers are a testament to its success.

We will continue to watch how the space is used, decipher any scope for improvement and identify ways to curate the space for continued enjoyment.

Our other news

Copse

We continue working with the Shelford and Stapleford Youth Initiative, maintaining the wild play area in the copse and the willow dome. The new sturdy dens we installed last year have been joined by a tree bench and we've recently secured the log piles left over from felling two trees into bug hotels.

Volunteers

Many thanks to those who helped us tidy up the Playscape flower beds and relocate four of the silver birch to places that will provide more shade for the Playscape.

Fun Run

Save the Date! Sunday 11th September 2022
We will be raising money for the Wheelscape!

Wheelscape

We've set our sights on the next phase, a skatepark designed by specialists and reviewed by local experts, for all types of wheels: from bikes to boards, skates to wheelchairs. This will be built when we have renewed the planning permission and secured grant funding. Donations gratefully received!
